10th December 2017

Dear Ms Ridley

Objection to Planning Application Ref 17/02221/HP

Proposed alteration, extension to the existing dwelling and erection of a double garage at 119

Greenhill Evesham WR11 4NB

We wish to register a strong objection to this application. In particular, we support the objection registered by Susan Campbell for the Simon de Montfort Society, dated 3rd December 2017.

The Battlement Site – English Heritage identified the importance of the site to full appreciation of the battle of Evesham, which is in the Register of Historic Battlefields and is critical to the future of Evesham as an historical tourist centre. Wychavon District Council's Conservation Officer has also registered his concerns over the size, location and impact of the extensions. The Society support these objections and concerns; if this proposal were to be approved every other property, in or adjacent to the battlefield periphery, could submit a similar proposal and expect approval based on the precedent set with this application.

We believe this application must be refused.

Yours sincerely

John Goodwin
Hon. Secretary, Vale of Evesham Civic Society
